

# THE SPORTS DIVING MEDICAL - 2nd Ed.

by Dr. John Parker

The Sports Diving Medical provides a very accessible, readable and yet comprehensive guide to medical conditions relevant to recreational scuba diving. Dr. John Parker shares the experience he has gained from performing more than 12,000 recreational diving medical examinations, combined with his knowledge of the diving industry gained from his experiences as a dive instructor and dive shop manager.

### From the Foreword:

... Dr. John Parker is to be congratulated on producing an updated version of his book that has now become a standard in the field. It is comprehensive, while containing all of the advantages of single authorship. It will be an indispensable reference for every diving physician and any doctor who has only an occasional brush with a prospective diver.

**Prof. Richard E. Moon, MD** Duke University Medical Centre, The Divers Alert Network, USA

### What others have said:

This is one of the most balanced approaches to the dive medical examination that we have encountered ...The book will be of value to both diving physicians and diving instructors ...We are privileged to have been associated with the reviewing of the text and we heartily endorse it for use by all recreational diving medical examiners.

**Dr. Carl Edmonds** Diving Medical Centre, Sydney, Australia

**Prof. Des Gorman** University of Auckland, New Zealand

... It is on everyone's desk in the Medical Department of the Divers Alert Network where I work. I refer to it when giving out current and relevant medical information to any of the thousands of callers who phone us every year with diving and medically related questions ..... **Bruce Delphia** DAN Medical Information Specialist
